We have learned enough to indicate where the remains are hidden, and are sure of being able to arrest the thieves.

By Telegraph to the News, PHILADELPHIA, Nov. 11 .- A warrat was issued this morning for the arrest of J. B. Reed, one of the alleged con spirators in the Whitaker will case. The affidavit charges Reed with larce. ny, and states that some time ago he borrowed from a gentleman in this city original letters patent and deeds to nearly 100,000 acres of land in Brunswick and Craven counties, North Car olina, upon the representation that he had a purchase for the lands. Reed destroyed the deeds which had never been recorded and substituted false ones.

After consultation with lawyers competent to advise, I state my opinion to be that the old mode of comparing the votes of counties by the sheriffs has been abolished. To the People of North Carolina: Whereas, It is enjoined upon me by law, and it is also sanctioned by the precepts of our holy religion, that one day in each year should be set apart by proclamation as a day of solemn and public thanksgiving to Almighty God for past blessings, and of supplication for his continual kindness and care over us as a State and people:

## THE RE-ADJUSTMENT OF SALARIES AND FEES.

Governor--Attorney General-Necretary of State. Correspondence of the News.

When the currency began to be in-flated, the office holders plead for and received an increase of salary on the ground that the prices of everything else had risen. Now that the prices of everything else have fallen, salaries also

heuld go back to ante-bellum prices. The News has again vindicated its title of the "people's paper" oy being the first to bring this subject prominently before the public eye and endorsing it with the weight of a successful and influential party organ.

There is danger that some advocates of economy may injure the cause by their demanding too much Retrenchment is needed. The next Legislature is confidently looked to, to reduce salaries and fees to a proper accordance with the stringency of the times, the enhanced value of the medium in which salaries are paid and the diminished income of tax-payers. But care should be taken to leave all salaries sufficient to command talent and honesty.

"The laborer is worthy of his hire." As one of the people the writer claims to have a right to speak on this subject, and as your paper has not hesitated, in the public interest, to shock some office-holders by advocating retrenchment, doubtless you will give place in your valuable columns to the following considerations on the subject:

SALARY OF GOVERNOR. No reduction made in the salary of Governor can take effect during the present term. it being very justly for-bidden by the constitution. Having agreed to take the office at a fixed sum, the incumbent is properly pro-tected against any change in his salary. The proposed reduction must therefore be made by the Legislature this winter, as new incumbents will be elected before the next Legislature and then their salaries can not be touched

for four years to come.

The salary of the Governor now by law is \$4000 per annum and the use of a furnished house. At present the Governor's mansion not being occupied by reason of its bad condition, the Governor receives the rent therefrom. It is to be hoped however that a suitable mansion will at an early day be fitted up by the State for our Governor to occupy. Besides this the Governor is now allowed by law a Private Secretary, who gets \$750 per annum, besides sundry fees and has leave to employ an additional clerk at \$600. The latter appropriation our present popular Governor uses only in part, but the Legislature, it will be rembered, is not for him but an unknown successor. To sum up; the Chief Executive for himself and his clerks is now entitled to \$5,350 besides house rent, postage and incidental expenses of his office. Before the war, Graham, Bragg, Reid, Ellis, and others received \$3000 and no clerk hire. Why then should there

half as wealthy as we were in 1860? ATTORNEY GENERAL. The increased salary of this officer is another of the expenses entailed on us by the Radical Constitution of 1868. Up to that date the Attorney General was paid a salary of \$200 per annum, i. e., \$100 for each term of the Supreme Court, and the office was combined with that of Solicitor of the Raleigh District. By the constitution of 1868 the office of Attorney General was more properly united with that of Reporter of the Supreme Court but unfortunately while retaining his salary of \$200 aforesaid, and fees, an additional salary of \$1,500 was added so that at present the salary of the Attorney General is about \$3,500, to As Attorney General,

Allowance for attending Supreme Court, Fees allowed for State, 1,500 As Reporter,

\$3,500 The duties of the Attorney General, aside from those of Reporter, are almost nominal. He is allowed to practice in all courts, from that of the Justice of the Peace up to the Supreme court of the United States. His duties, so far from interfering with practice, are a good advertisement. Why the taxpayers should continue to pay \$3,500 for Attorney General when there are at least 100 competent lawyers in the State who would be glad to get the place at \$1,500 per annum (or certainly at the present Reporter's salary plus the old Attorney General's salary of \$200 per annum) is a question which this General Assembly must be pre-pared to answer. We have now the anomaly of the Chief Justice and his associates, debarred from all practice at the bar, getting \$2,500 and their Attorney General getting \$3,500, with full liberty and opportunity to practice.

SECRETARY OF STATE.

The emoluments of this office are generally estimated at \$6,000 to \$8.000 per annum. Doubtless we could safely say they are \$6,000. As we pay the Chief Justice only \$2,500 we could probably get a good Secretary of State by giving him \$2,500 in lieu of all fees and salaries. The saving to the taxpayers in these three offices after reducing the Governors to **\$3,0**00

Attorney General to 1.500 Secretary of State to 2.500 (which are fairly good salaries for these times) would be as follows: \$2,350

\$7,850 Total reduction, In what has been said there is no intention of reflecting on the present incumbents. They are entitled to receive their salaries as fixed by law. It is but right that the amount of their salaries should be discussed that the salaries of their successors may be adjusted at a proper figure. The writer has not been criticising the income of these gentlemen but the salaries affixed by law to the positions they occupy, and those salaries the public will agree with him in saying should be greatly

#### BAPTIST STATE CONVEN-TION.

The Session at Charlotte--Fourth Day's Proceedings.

Charlotte Observer, The convention met at the usual hour G Covington.

The committee on periodicals submittee said that it was meeting the wants of the Baptist of North Carolina bettter than at any time in its history, The report of the board of State Missions came up as unfinished business, and was, without further discussion,

mended that no agent be appointed, that is, that the recommendation of the board is adopted, and the minority report favored the appointment of an agent. It was explained that an amendment had been offered to the minority report, to the effect that the agent recommended to be appointed by this report, be selected by the board of mis-

sions, not by the convention. Remarks were made in favor of the plan by Rev Dr. Jeter, Prof L R Mills. and against it by Mr J E Ray and Capt

C M Cooke. Rev Dr Pritchard said that he did not oppose the appointment of an agent on general principles, but that the great d fliculty now was that the man to do this work could not be found. He to do this work could not be found. He should have special and peculiar and is consequently 42 years of age.

The question was then put on the minority report and it was rejected. The majority report, which the president explained, left the whole matter of the agency in the hands of the board, was then put and carried unanimously.

Rev Dr Jeter was granted the privlege of making a statement in reference to a monument for John Kerr, to whose memory he paid a handsome tribute. He said though the great preacher was born in North Carolina, he had spent most of his life in Virginia, and he expected to apply to the Baptists of that State for help to raise a suitable monument to the memory of one who had done so much

for the cause of religion.

The report of the Sunday school board was then taken up and adopted without discussion.

The committee to whom was referred the matter in regard to the volation Presbyterian Synod of North Carolina. reported as follows :

'That we believe it to be a great sin are commanded to keep holy, and we are glad to know that our Presbyterian bretbren are earnestly engaged to prevent such desceration; it is a cardin-al principle of the Baptists of North responsible position. Carolina to keep and preserve the sanctity of the Sabbath, and we are ready and willing to lend our aid in any lawful way to put a stop to this great evil. We therefore respectfully recommend that the Baptists of North Carolina do earnestly co-operate with their Presbyterian brethren in their endeavors to accomplish this end; that the Baptists, constituting a large part of the citizen ship of North Carolina, and therefore largely interested and much concerned in anything which is for the good of society, and the preservation of God's honor, do in all portions of our commonwealth, make vigorous efforts in any lawful way, to prevent the desecration of the Sabbath by the railroad companies." Adopted unanimously. On motion of Rev. Dr. Huffham, the report of the Sunday school board was reconsidered for the purpose of allowing the question to be discussed. Messrs. J S Allen, W A Graham, Rev W R Gwaltney, Rev F M Jordan and Jno E Ray then addressed the convention on

the subject. Rev R H Griffith, agent of the Southern Baptist Theological Seminary, addressed the convention for a half an hour in behalf of the seminary, referring especially to the importance of the Bible as a study and the necessity of an educated ministry. He said that he started out to collect \$20,000 for the seminary and he was glad to say that over \$19,000 of this amount had been

Rev R W Gwaltney introduced a resolution urging all associations connected with this body to report all their mission work to the mission board, and that this would entitle them to representation on the same basis as stated in the constitution; also that a summary of the work of the western convention be published in the report of this con-

vention. Adopted. The finance committee submitted a report of the following contributions in cash at the present convention, which was received and adopted: For foreign missions, \$227 29, State missions, \$80.51; education, \$16; Sunday schools, \$32.50; domestic and India missions, \$20.10; Rome chapel, six dollars a d forty-five cents; making a total of three hundred eighty-two dollars and eighty-five cents.

The committee on ob tuaries reported the death of Rev. Smith Ferguson, of Caldwell county, in March, and Phillip Warlick, of Warlick church, Burke county, with appropriate notices of the lives and characters of the deceased

Rev N B Cobb offered a resolution expressing the hearty sympathy of the convention with the home mission board of the Southern Baptist Convention and cordially commending it to the Baptists as worthy of their confidence and support; also a resolution expressing concurrence with the desire of the corresponding secretary of the home mission board to secure the services of Rev. J. B. Hartwell, as missionary to the Chinese in California, pledging contributions to the work should Mr. Hartwell accept the ap-

pointment to the same. The resolutions were adopted. The following resolutions, intro duced by Rev. N. B. Cobb, were unanimously adopted .

## The Printer's Devil.

This appellation so commonly applied to the boy assistants of modern printing establishments, originated in the famous printing establishment of Aldus-Manutius, in Venice, in the following manner :- Manutius employed a negro boy to render assistance in the multifarious work of his office, and, who, on account of his dusky color, was believed by the superstitions to be an emissary of the prince of darkness From this notion of the credulous, the boy gained the sobriquet of "Printer's Devil." by which he was known all over Venice. To dissipate the ridiculous superstitution Manutius one day publicly exhibited the lad to the popus lace, with the announcement, "I Aldus Manntius, printer to the holy church and doge, have this day made public exposure of the Printer's Devil. out the department.

In government circles at Berlin a gloomy view is taken of the prospects of peace in Europe. The proposition to summon a new Congress to revise the Treaty of Berlin is not regarded with any favor. The best diplomatic talent, it is urged, was engaged in the con-struction of that instrument; and, if their work is to prove futile, who can do better? In the probable event of hostilities, Germany's interest, it is believed, would lead her to an association with Austria, unless the latter is already too deeply committed to an English alliance.

Washington Post. The House Committee on Appropriations will assemble in Washington on the 20th inst.. and a full attendance is expected. Work will be commenced at once on the large appropriation bills, but it is not expected that they will be ready by the beginning of the session. A number of smaller bills, such as the fortification bill, the pension bill, the Indian bill and the West Poin bill, will, however, be ready for submission at that time.

## EVENTS IN THE STATE.

BRAUFORT.—North State Press: The new Sheriff of this county not being able to give the requisite bond for the collection of taxes, the Board of Commissioners awarded it to ex-Sheriff F. J. Satchwell.

CATAWBA.-Piedmont Press: The regular semi-annual meeting of the Morganton convocation of the Episco-pal church will take place in Hickory on Tnesday and Wednesday, 19th and 20th inst. MECKLENBURG. - Charlotte Democrat: John Ray, colored, a good farmer who lives in Providence township, has raised among his crop of cotton a stalk which has on it 400 perfectly shaped bolls. It looks like a small tree and is considerable of a curiosity.—Ex-cadet Priester, who in self defense shot a negro, was tried at Lincolnton, and at once discharged from custody.

MITCHELL.-Roan Mountain Repubicau: Mr. A. M. Page, a blind vocalist, from Raleigh, gave an entertain-ment at the Court House last Saturday night. He was educated at the Insti-tution for the blind at Raleigh, and has been travelling and giving Concerts for the last three years.—A cold wave passed through the mountains last Thursday, leaving the Roan again covered with several inches of snow, and freezing the ground considerably.

NEW HANOVER .- Wilmington Star : The new press of the Wilmington Compress Company, which was damaged by an accident some weeks since, is now all right, and in successful operation. - The Empire House, formerly known as the Manning House, is now neatly and comfortably furnished throughout, and can well accommodate about 150 guests.

#### Catholic Courage and Charity. The Pilot.

As the force of the plague has now well-nigh spent itself we present to our readers the total number of those riests and nuns who have given their lives in their efforts to relieve the sufferings of the unfortunate victims to this terrible scourage. The Diocese of New Orleans alone lost its Vicar-General, 15 priests and 10 Sisters; that of Natchez, including Vicksburg. 6 priests, 5 Sisters; that of Nashville, 9 priests, 3 Sisters; that of Mobile, 1 priest, one Sister; making a total of 32 priests and 28 nuns who have fallen victims to the yellow fever in the dis-charge of their duties. The Catholic Relief Association has given aid already to the amout of \$86,000 from total receipts of \$90,000. This amount, however, by no means represents the whole of the Catholic charity towards the South. In every town and city where subscriptions were taken the Catholic business men subscribed individually, and the money passed through the official channels. But, as it stands, the above recordis one in which we may justly take pride.

## A Solid South Saved the Demo-

cracy. Philadelphia Record. The vote in Pennsylvania fairly reflects the vote in the other twenty-nine State that held elections on Tuesday. But for the impregnable position occupied by the Democratic party in the Southern States, its financial heresies would have cost it dear in the loss of its majority in the House of Representative. It is only saved by the skin of its teeth. The factional fight in New York was as disastrous in that State as open affiliation with the Greeubackers elsewhere. There is a manifest disposition to trust the Democratic party

On the night of the 7th inst. near Sherrill's Ford in Catawba county, Mr. Wesley Wyckoff, an inoffensive kind of man, was attracted into his yard by the barking of his dog just before he retired to bed, and was shot and killed by some unknown villian. Watts.

Whatever mistakes the Northern Democrats may make, whatever the shifts and subterfuges to which they may resort, the South cannot afford to make a mistake.

The ruins of a Greek city have been Africa. The ancients knew more about the world than we common'y give harass or vex us; but with a steady inthem credit for.

North Carolina stands almost alone, as the State where the late Congressional contest (if a campaign where voters showed such lack of earnestness and purpose, can be called a contest,) was the least exciting and where such utter laxity prevailed.

THE newspaper correspondents, whose communications in favor of Judge Merrimon used to appear so very frequently, have entirely disappeared. We take it that this means that Judge a brighter future for the State and Merrimon, er somebody else, now regards Governor Vance's election to the Senate as being beyond the power of thy and love by the glorious deeds dutheir opposition.

The mutability of political life is instanced by the fact that we changed half of our North Carolina delegation to the lower House in Congress last Tuesday. Martin, Kitchen, Rusell and Armfield are all new members, and we shall change half of our representation in the Senate also when the Legislature elects this winter.

A communicaion appears elsewhere in our columns to-day on the important subject, now uppermost in the public mind, of retrenchment in the expenses of administering the State Government. The facts and figures will speak for themselves. The public will be the best judge of the recommendations therein made, for it is the rublic who must foot the bills.

man in the count ry.

THE robbery of the grave of the late A. T. Stewart has caused a thrill of hor or through the country. A more revolting crime could not have been committed. The base purpose of the villians who did the deed, to prey upon a wife's affection for their reward, shows to what depths of baseness human villiany can descend. From our telegrams it will be seen that vengeance pursues, and that the quick-eyed guardians of the Metropolis have a sure mains.

Blaine wound up his last bloodyshirt campaign speech in Philadelphia, Saturday, by declaring that "we shall be compelled in the end, from self-interest and self-protection, to resort to that which at the outset we should have resorted to from principle." Knowing the venom and the designs against the South and its people that lurk in the bosom of this serpent Blaine, we must congratulate ourselves that his threats are of the airiest nature now, his power waned, and that whatever may be the plots and plans of himself and crew, the South may sit in calm serenity, heeding not his empty words.

The Postoffice Department is yearly increasing the extent of its transactions, and constantly introducing new features and improvements in its service. Receipts the past year for stamps were \$27,375,593, with a net revenue of \$16,-839,115. In the operations of the fredelivery system there is a very satisfactory showing. Altogether there are 87 cities in which it exists, the whole number of carriers being 2,275. The pieces-letters, newspapers, postal cards, packages, &c .- delivered by them were 715,782,150, making 314,629 for each carrier. The total cost of fhe system was \$1,824,166.06, but against this is credited the postage received on local business-matter received for delivery in the same city where it was mailed-which amounted to no less a sum than \$2,452,251.51, paying all the expense of free delivery and leaving an actual not revenue of \$628,084.55. This system is being adopted for a large number of cities yearly, and it is probable that ere long Raleigh will have it also.

The Republican newspapers are fond of pointing to the small number of Republican officials in South Carolina as an evidence that the intimidation of Republican voters is practiced there. There is one Southern State, however, that these papers have overlooked, in which the Republicans, as far as officers are concerned, have fared worse than in the Palmetto State, and this is Delware. There is to-day not a single Republican official or public employee in Delaware, from governor down to village constable, and has not been for many sale at Oak City Confectionary and Grocery. years. So long has this condition of aff sirs existed that the Republicans, seing the absolute impossibility of their securing any spoils, have, as is usual with them on such occasions, formally disbanded the party. Delaware was the only State in which, on last DR. JAQUES & CO., Tuesday, there was not a Republican

DAILY NEWS the field in some counties, but not a Republican. Here is a study, a problem, for the Republican press: A Southern State, within sight of Philadelphia and New York, where bulldozing is impossible and intimidation has never even been whispered, which is more solidly Democratic than South Carolina or Louisiana can ever hope to

In to day's issue appears the proclamation of Governor Vance, setting spart Thursday, the 28th of November, as a day of fasting and prayer. The Old North State has reason to be thankful to God for the blessings, which have been poured upon her with no unsparing hand. Free from the death dealing tever which has desolated so many Southern firesides, and played wile discovered in the Transvasl in South havor with commerce and business properity; with no internal troubles to crease of prosperity, which though it may be somewhat slow is none the less sure, we have been the recipients of an unusual share of blessings and benefits. The beautiful custom of observing this day is of Puritan origin, but has found its way to and won the hearts of the people everywhere in the Union, and is now become one of the national festivals. Taking a rest during this festival occasion, we should reflect that while we have so much to be thankful for in the past, there shines ahead even country, which, welded together yet more strongly in the bonds of symparing the late pestilence, which have given birth to better and wider impulses, is losing its bitter sectional-

There seems to be a concerted plan among the Republicans to make Grant their presidential candidate in 1880. The recall of that "man of destiny" fom abroad seems to by the first step in this programme. It is more than hinted that there will be a conference of Republican leaders in Washington shortly before the meeting of Congress, at which the general plan of the cam, paign will be arranged, and a reorganization of the party effected on the basis of the old policy which prevailed before the present administration. Hayes THE women of Salt Lake City who has given way completely, it is said, to oppose the practice of polygamy have the pressure that has been brought to issued an address to the women of the bear upon him, and will submissively United States, reciting the melancholy hand over the reins to the Republican facts connected with the base uses to leaders to whom he has previously been which religion has been put in that re- in such complete antagonism. But the country is well aware of the plans of these manipulators, and will be on its guard against them. Of one thing we are sure, and that is that no man whom the Republicans could nominate would suit the Democrats so well as Gen. Grant, for no prominent caudidate of the Republican party is so assailable, and none whose nomination would provoke so fierce and powerful an opposition from independent men of all parties.

A CERTAIN AND SPEEDY

GURE FOR SCROFULA

PACTS ARE STUBBORN THINGS !

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement: and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrotula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person and it had the Scrotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an apstairs arawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the winskey, and did as directed to the called. Her child now lives well as d hearty. More than this: Only a few months since a bouth Carolinian, whose name has slipped us, was suffering with some scrotulous affection on the heel he had been to the flot Springs. It. Aramsas, and from there he went to kntrell Springs. Not ing did him any good. At Kattell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the south Carolinian sent ber word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added it they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The south Carolinian went home, and shorly afterward sent ars. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Biess those oid indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD

PURIFIER. MRS. JOE PERSON:

The medicine I purchased of you last winter proved of tassing cenefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy. he was perfectly restored, and is to-day quite sound and healthy. As a Tonic and Blood Purifical IT has no EQUAL doping that you may be spared for many years of usefulness, a remain,

Very respectfully.

Louisburg, N. C., May 22, 78.

AS A TONIC AND ALTERATIVE Eeing desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's itemedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal, I have fairly tested it, and after trying Vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any IONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak. complection sallow, and now I am Welli, Respectivity Jur friend,

MRS, H, L, BROWN.

Sept 26. 1878, THREE CHILDREN IN THREE

CASTALIA, N. C. Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrotula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me, Yours truly,

WM. H. ARKINGTON. MRS. JOE PERSON

It gives me much pleasure to be able to state that I nave derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaised of eve. getting well. I was treated during that time by three very emineut physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fied before the remedy, and I am now enloying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure alleady made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully.

Kittreells, N. C. "It will Cure at sairly Tested."

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blod Puriner, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood' and probably for other diseases.

A CASE OF CANCER. FAYETTEVILLE, N. C., Aug. 12, 1878.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOS PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper ilp and a good part of my nose. When I begin to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could nave had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action, and run up to 20, beats per minute. Since using your medicine I as almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would necesse in its action, and run up to 20, beats per minute. Since using your medicine As a limost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would necesse in the action and alter ative, I do not think it has any superior. I have been using all the most powerful afteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic oran Alterative give it a trial, and I do not think they will be disappointed.

Very truly and kespectfully,
